

Module INNOVATION – 1-Day-Discovery-Lab

Connect to LEGO® SERIOUS PLAY®

Transform insights and awareness into commitment and shared goals.

- + Breaking habitual thinking
- + Creating energy and flow
- + Tapping into people's unused potential
- + Unlocking new knowledge
- + Facilitating insights, creativity, confidence and commitment

The world we know is changing every second and the challenges we will face tomorrow cannot be solved with yesterday's tools for success. At a time when volatility, uncertainty, complexity and ambiguity demand our full attention, we need a different approach to communication, decision making and problem solving. Our challenges will no longer be conquered by one „brain“ alone. You need everyone – contributing different knowledge, experience and perspective – to move into the future.

You have heard about the LEGO® SERIOUS PLAY® method and its potential to empower people in an organization to participate and contribute to the success of the organization? Seize your chance to experience this extraordinary method in our 1-Day-Discovery-Lab. See for yourself its power to engage and motivate people to deliver unexpected ideas and solutions to the challenges on hand.

Do you dare to play?
Then join us for an intense experience!

What is your benefit?

- Understand the potential of „Thinking with your hands“
- Learn the core process of LEGO® SERIOUS PLAY®
- Engage in a tool for building results
- Enhance your communication skills

Is this for you?

- Professionals who would like to learn about the LEGO® SERIOUS PLAY® method and its potentials.
